

Recreation Road Sport Centre's Commitment to Safety during COVID-19

Cleaning Functions

The Centre has increased cleaning times to include use of third party cleaners following school use Monday-Friday before evening hire by community groups and clubs. Contract cleaning has also been arranged on Saturday and Sunday 12:30-13:30 between morning and afternoon community hire use.

All cleaning, contract or by RRSC cleaning staff will cover the following:

Frequently cleaning and disinfecting objects and surfaces that are touched regularly particularly in areas of high use such as door handles, light switches, reception area, tables/chairs, tills, card machines using appropriate cleaning products and methods.

The centre asks that hirers clean any centre equipment used such as benches and mats using the appropriate solution before putting away in storage cupboards.

All school users of the Centre recognise what kills COVID-19 and the sterilisation and sanitisation measures needed.

Pre-Opening

Signage for symptoms, handwashing and hand sanitisation have been put up around the Centre.

Additional Terms of Use for Hirers has been uploaded to the website at <http://www.recreationroadsportscentre.org.uk/covid-19/> setting out additional measures and actions during hire of the Centre at this time. These terms and conditions are additional to the standard terms and conditions of hire found on the website here <http://www.recreationroadsportscentre.org.uk/terms-conditions/>

Social Distancing

Numbers permitted into the Centre will be within safe guidelines and monitored by the hirer. Booking times have been changed to allow for necessary cleaning to be carried out.

All users of the Centre are advised to attend in correct clothing to reduce crowding in the changing rooms. Use of showers is permitted, however it is the responsibility of the user to ensure they maintain appropriate social distancing.

Notices have been put up around the Centre to remind users of the importance of maintaining social distancing.

Hygiene Considerations

In addition to notices to remind users to wash hands and use hand sanitiser, the Centre also reminds users not to use the hand dryers in the toilets unless they have washed their hands with soap and water.

The Centre has provided additional hand sanitiser in the Centre for use but also recommends that users provide and use their own hand sanitiser for hygiene purposes.

The Centre recommends that any activity where users have bare feet, that the users wipe their feet prior to entering the main hall and using equipment such as mats and benches with an appropriate sanitising wipe.
